

>> Dieselfloater March 2024

Dear Ladies and Gentlemen,

we would like to inform you about an important change in our Dieselfloater, which will come into force on 01.01.2024. In order to provide you with a better overview and easier forecasting, we will be classifying diesel surcharges into price ranges. These price ranges are intended to enable you to estimate and plan the expected costs more precisely in the future.

The calculation of diesel surcharges will continue to be based on the known calculation basis. The diesel price ranges and the diesel surcharge to be derived from them can be found in the attached file.

According to this, the **diesel surcharge** will be **3,75%** from 01.03.2024.

Caution: Due to the current strong fluctuations in the price of diesel, we reserve the right to make further situational adjustments.

If you have any questions or require further information, please do not hesitate to contact our sales team.
